

Unity® Relieve Frequently Asked Questions

What is Unity Relieve?	Unity Relieve is a single vision lens designed to alleviate symptoms of digital eye strain. The lenses provide a higher level of visual comfort for pre-presbyopic single vision wearers who spend two or more hours a day on digital devices and show symptoms of visual fatigue or digital eye strain
What are the wearer benefits of Unity Relieve?	Unity Relieve offers the following wearer benefits: <ul style="list-style-type: none">• Personalised eye strain relief• Single-Vision fit and feel• Effortless adaptation• Targeted blue light defence
Where can Unity Relieve be ordered?	Unity Relieve lenses are available from the VSP Optical Lab Sydney.
When is Unity Relieve available to order?	Unity Relieve is available now to order from the VSP Optical Lab Sydney.
What Unity Relieve designs are available?	Unity Relieve is offered in two positive power bumps. <ul style="list-style-type: none">• Unity Relieve 50 (0.50D)• Unity Relieve 70 (0.70D)
Which Unity Relieve lens is appropriate for which patients?	<p>The choice of Unity Relieve design depends primarily on the severity of symptoms <i>Our studies indicate that relying on patient age alone does not provide optimum results when prescribing lenses for Digital Eye Strain.</i></p> <ul style="list-style-type: none">• Unity Relieve 50 – Mild digital eye strain symptoms• Unity Relieve 70 – Serious digital eye strain symptoms <p>For those who wish to prescribe based solely on age, a dividing point of around age 35 for selecting power bump is suggested.</p>
What materials is Unity Relieve available in?	Unity Relieve is available in CR-39, Polycarbonate, Trivex, 1.60 High-Index, 1.67 High-Index, and 1.74 High-Index.
Will TechShield™ Blue be automatically supplied on Unity Relieve?	Yes, all Unity Relieve orders will automatically be paired with TechShield Blue except when SunSync Light-Reactive lenses are selected. TechShield Blue is not automatically paired with SunSync since blue filtering properties are inherent in both. If SunSync is selected, Unity Elite AR is provided.
Can Unity Relieve be ordered with enhancements other than TechShield Blue?	Yes, Unity Relieve can be ordered with SunSync Light-Reactive Lenses or SunSync Drive XT.

Which anti-reflective coating without blue-light-reducing properties is recommended when SunSync is chosen?	Unity Elite AR is paired for best performance with SunSync Light-Reactive Lenses.
Does Unity Relieve replace Unity Single Vision Lenses?	No, Unity Relieve is an addition to the Unity Single Vision portfolio. Not every single vision patient suffers from digital eye strain. For those who do, Unity Relieve is the ideal solution.
